

# Complex Algebraic Geometry

April 12 to July 16, 2010

**INSTITUT HENRI POINCARÉ**

Thematic term of the Centre Émile Borel  
11 rue Pierre et Marie Curie, 75005 Paris, France

Organizers: Olivier Debarre, Christoph Sorger, Claire Voisin

All along the term, research lectures and seminars will be held, as well as the following three conferences :

## Conference

*Cohomology of Algebraic Varieties, Hodge Theory, Algebraic Cycles, Motives*  
April 26 to April 30, 2010

## Conference

*Derived Categories, Holomorphic Symplectic Geometry, Birational Geometry, Deformation Theory*  
May 17 to May 21, 2010

## Conference

*Complex Algebraic Geometry*  
June 28 to July 2, 2010

If you would like to participate in the term (or attend a conference), please register at the Centre Émile Borel by visiting the website [www.ihp.jussieu.fr/ceb](http://www.ihp.jussieu.fr/ceb). The participation of PhD students or postdocs is particularly encouraged.

For additional information on the term please contact Claude Lucet of the Centre Émile Borel by e-mail at [alggeom2010@ihp.jussieu.fr](mailto:alggeom2010@ihp.jussieu.fr). To receive the scientific program please subscribe to our mailing list by sending an e-mail to [infoalggeom2010-request@ihp.jussieu.fr](mailto:infoalggeom2010-request@ihp.jussieu.fr) containing the word subscribe. The webpage of the term is: [www.fpl.math.cnrs.fr/alggeom2010](http://www.fpl.math.cnrs.fr/alggeom2010)
